OPERATIONAL AUTHORIZATION AND APPOINTMENT

From: Cloud Innovation Ltd ("Cloud Innovation")

To: LARUS Limited ("LARUS")

1. Background

- 1.1** Cloud Innovation is the registry-side continuity and shareholder-position entity operating within a broader continuity framework relating to certain IPv4 address resources and related registry-side arrangements ("Continuity Structure").
- 1.2** LARUS is the customer-facing commercial, operational, and technical platform responsible for leasing operations, routing coordination, renewal management, customer support, and related continuity services within the Continuity Structure.
- 1.3** Lu Heng is acting as the strategic and commercial coordination lead in relation to the Continuity Structure. In this capacity, Lu Heng provides overall commercial direction, operational coordination, and alignment across Cloud Innovation and LARUS, including in relation to leasing operations, routing coordination, renewal management, customer operations, and related continuity support functions.

2. Appointment

Cloud Innovation hereby appoints and authorizes LARUS as the exclusive customer-facing commercial, operational, and technical platform in relation to the relevant address estate and Continuity Structure, with coordination and strategic alignment supported by Lu Heng.

3. Scope of Authorization

Cloud Innovation authorizes LARUS, on an exclusive basis, to carry out, manage, support, and coordinate the following in relation to the relevant address resources and the Continuity Structure:

- (a) IPv4 leasing and related commercial arrangements;
- (b) routing authorization and network operational coordination;
- (c) renewal management and continuity administration;
- (d) customer contracting support and customer relationship operations;
- (e) technical coordination, implementation support, and operational handling in connection with the relevant address resources; and
- (f) all related follow-up actions reasonably necessary to support the above functions.

4. Commercial Positioning and Representation

Cloud Innovation confirms that LARUS may act as the primary customer-facing, commercial, operational, and technical interface in relation to the relevant address resources.

In that capacity, LARUS may represent and describe the operating structure on the following basis:

- (a) LARUS is the customer-facing commercial, operational, and technical platform;
- (b) Cloud Innovation remains the registry-side and structural authorization entity within the relevant continuity framework; and
- (c) the relevant address resources are operated within a unified continuity and operational framework under Lu Heng strategic direction, coordination, and commercial control.

5. Clarification of Roles

This letter confirms LARUS as the primary commercial, operational, and technical interface for the relevant address estate. Cloud Innovation retains its underlying structural and authorization position in respect of the relevant registry-side continuity framework.

6. Term

This authorization shall remain in full force and effect unless and until revoked, replaced, or amended in writing by Cloud Innovation.

7. Reliance

Any third party dealing with LARUS in relation to the matters described in this letter may rely on this authorization unless and until notified otherwise in writing by Cloud Innovation.
